Introduction

1

This publication presents statistics on labour market policy (LMP) interventions implemented by EU Member States and Norway in 2011, together with time-series for key variables covering the period 1998-2011. Data are presented in three chapters. Note that Croatia was not yet an EU Member in 2011 and is therefore not covered in this publication.

Chapters 2 and 3 deal respectively with data on expenditure and participants in LMP interventions and include tables of indicators used for monitoring the EU Employment Guidelines. Chapter 4 includes tables of external and reference data that help to put the LMP data into context.

All data and other information in this publication are presented in accordance with the LMP Methodology revision of June 2006 and Addendum of 2009 (see point 1.3 below). During 2013 a revision of the LMP Methodology was completed¹ and this will form the basis for the collection of data for reference year 2012. At that time all historical data will be revised where necessary to respect the changes made in the methodology.

1.1 Scope of LMP statistics and key concepts

LMP statistics cover labour market interventions which are public interventions in the labour market aimed at reaching its efficient functioning and correcting disequilibria. LMP interventions are distinguished from other general employment policy interventions in that they act selectively to favour particular groups in the labour market. The primary target groups in most countries are those people who are registered as unemployed by national Public Employment Services (PES) or who are currently employed but at risk of involuntary job loss due to difficult economic circumstances for their employer. However, policy objectives at European and national levels are increasingly focused not only on these groups but on a wider range of people facing disadvantages and barriers that may prevent them from joining or re-joining the labour force – for example, women re-entering work after a family break, young people looking for their first job, older workers and disabled workers. Therefore, people currently considered as inactive but who would like to enter the labour market are also treated as an important LMP target group.

National interventions are classified according to a single scheme in order to ensure that the information on LMP interventions undertaken across Europe is presented in a

way that is as consistent and comparable as possible. LMP interventions are classified by type of action, which refers to the way in which an intervention acts to achieve its objectives. The classification identifies three broad types of intervention – services, measures and supports – and 9 categories². LMP services cover all services and activities of the Public Employment Services (PES) together with any other publicly funded services for jobseekers. Services include the provision of information and guidance about jobs, training and other opportunities that are available and advice on how to get a job (e.g. assistance with preparing CVs, interview techniques, etc.). The classification scheme includes one category of LMP services:

- Labour market services (cat. 1)

LMP measures cover interventions that aim to provide people with new skills or experience of work in order to improve their employability or that encourage employers to create new jobs and take on unemployed people and other target groups. Measures include various forms of intervention that "activate" the unemployed and other groups by obliging them to participate in some form of activity in addition to basic job search, with the aim of improving their chances of finding regular employment afterwards. They are mostly short-term and temporary actions but on-going support for jobs that would otherwise not be sustained in the regular labour market is also covered. The classification scheme identifies six categories of LMP measures²:

- Training (cat. 2)
- Job rotation and job sharing (cat. 3)
- Employment incentives (cat. 4)
- Supported employment and rehabilitation (cat. 5)
- Direct job creation (cat. 6)
- Start-up incentives (cat. 7)

LMP supports cover financial assistance that aims to compensate individuals for loss of wage or salary and to support them during job-search (i.e. mostly unemployment benefits) or which facilitates early retirement for labour market reasons. The classification scheme includes two categories of LMP supports:

- Out-of-work income maintenance and support (cat. 8)
- Early retirement (cat. 9)

For each intervention, data on expenditure and participants are collected. Expenditure is broken down according to a two tier scheme, which distinguishes firstly the direct recipient of the transfers and then the type of expenditure

involved. The numbers of participants in LMP interventions are recorded using three observations: stock, entrants and exits. Stock data (annual average) refer to the average number of persons participating in an intervention at a given moment during the year and are usually calculated from the administrative data as an average of the stock at the end of each month. The annual average stock can also be interpreted as the number of person-years of participation in an intervention. Flow data describe the number of people joining (entrants) or leaving an intervention (exits) during the year.

1.2 EU employment policy and LMP indicators

LMP statistics are one of the data sources for monitoring the EU Employment Guidelines through the Europe 2020 Joint Assessment Framework (JAF)³. The JAF is an indicator-based assessment system developed and used by the European Commission (Directorate General for Employment, Social Affairs and Inclusion) and the Employment Committee (EMCO). Organised in 12 Policy areas (PA), the JAF includes a series of indicators used to monitor the progress towards EU headline targets and related national targets in relation to the implementation of the Employment Guidelines. In each policy area, indicators are categorised as overall indicators, sub-indicators, and context indicators. The logic of the JAF is that, in principle, under each policy area the sub- and context indicators should reflect factors that explain and drive the outcome of the overall indicator.

Six indicators related to LMP fall within policy area 3: Active labour market policies (PA3):

- PA3.S1 (sub-indicator) Expenditure on ALMP per person wanting to work (see Table 2.1.4): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 divided by the number of persons wanting to work (ILO unemployed plus labour reserve).
- PA3.S2 (sub-indicator) Expenditure on ALMP as a % GDP (see Table 2.1.3): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 as a percentage of GDP.
- PA3.S3 (sub-indicator) Activation (see Tables 3.3.1 – 3.3.3): Stock of participants in regular activation measures (LMP categories 2-7) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).
- PA3.C1 (context indicator) Activation of registered

unemployed (see Tables 3.3.4 – 3.3.6): Stock of participants in regular activation measures (LMP categories 2-7) that were previously registered unemployed divided by the stock of registered unemployed plus the stock of participants in regular activation measures that were previously registered unemployed and whose unemployment spell is broken by participation in a regular activation measure.

- PA3.C4 (context indicator) Activation of long-term (registered) unemployed (see Tables 3.3.7 – 3.3.9): Stock of participants in regular activation measures (LMP categories 2-7) that were previously long-term registered unemployed divided by the stock of long-term registered unemployed plus the stock of participants in regular activation measures that were previously long-term registered unemployed and whose unemployment spell is broken by participation in a regular activation measure (long-term unemployed = 12+ months for adults (25+) and 6+ months for youth (<25)).

- PA3.C6 (context indicator) Timely activation (see Tables 3.3.10 – 3.3.12): The proportion of entrants in regular activation measures (LMP categories 2-7) or assisted activation programmes (LMP sub-category 1.1.2) taken up by persons not yet long-term unemployed (Target value 100% = full compliance): $(A-B)/A$ % where A = Total entrants, B = Long-term unemployed entrants (12+ months for adults 25+ and 6+ months for youth <25).

Two further indicators related to LMP fall within policy area 4: Adequate and employment oriented social security systems:

- PA4.1.S1 (sub-indicator) Expenditure on LMP supports per person wanting to work (see Table 2.1.4): Expenditure on LMP category 8 (Out of work income maintenance and support) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).
- PA4.1.S2 (sub-indicator) Expenditure on LMP supports as % of GDP (see Table 2.1.3): Expenditure on LMP category 8 (Out of work income maintenance and support) as a percentage of GDP.

1.3 Guiding remarks on data

Source of data and timeliness

Unless otherwise specified, all data presented in this publication were extracted from the Eurostat LMP database⁵ on the 26th November 2013. Data are collected annually from administrative sources in each country. The publication includes tables showing the original source of data on expenditure and participants for each intervention (see Tables 5.5 and 5.6).

Source codes in the form of internet hyperlinks are included after each table and figure in this publication to help readers access easily the most recent data available from the Eurostat website.

LMP Methodology

The LMP data collection is underpinned by a comprehensive methodology developed by Eurostat. It defines the scope of the data collection, the statistical unit and coverage, describes the classification system, and gives precise guidelines on the data to be provided. Users of LMP data are recommended to refer to this methodology in order to facilitate interpretation of the data provided in this publication. The methodology (revision of 2006 and addendum of 2009) is available from the Eurostat website⁶. This publication includes the questionnaire used in the LMP data collections (see Table 5.1), the classification scheme by type of action (see Table 5.2) and breakdown by type of expenditure (see Table 5.3).

Eurostat's LMP methodology is also used by the OECD. Data on LMP expenditure and participants published by the OECD in "Employment Outlook" for the EU countries and Norway are collected and carefully validated annually by Eurostat before being sent, together with all related metadata, to the OECD. The only divergence between the two databases is in category 1 (Labour market services), where OECD prefers to maintain a different coverage and has, for some countries, either supplemented or excluded parts of the Eurostat data.

Qualitative data

In addition to the quantitative data on expenditure and participants presented here, the LMP database includes valuable qualitative information describing each intervention, how it works, the main target groups, etc. These descriptions help to put the quantitative data into context and can be extremely useful for researchers. These qualitative data are compiled into a series of "Labour market policy statistics: Qualitative Reports" and produced as separate volumes for each country/year⁶. This publication includes a table expanding on any abbreviations used in intervention names and explanatory notes to the quantitative data reported by each country (see Table 5.4).

Coverage

In accordance with the LMP methodology, the data presented in this publication should cover all LMP interventions in each country including those of

autonomous regions, which may be significant. There are, however, some known exceptions:

Germany: The Länder (regional authorities) carry out some important LMP activities independently of the federal actions but insufficient data are available to report on these in any detail. However, many of the activities of the Länder are supported by the ESF (European Social Fund) and the LMP data for 2000-2006 include a single entry (DE-84) covering this expenditure and the related participants. Unfortunately changes to reporting procedures for the 2007-2013 ESF funding period mean that the data on ESF expenditure relevant to LMP in Germany are no longer available. The data for Germany for 2007-2010 are therefore missing the expenditure and participants related to LMP activities of the Länder. In 2006 the ESF support for these actions accounted for 7.4% of the expenditure on LMP measures (categories 2-7) in Germany and 29.6% of the participants.

Greece: Data for 2011 were not provided.

Spain: Data for some interventions do not cover all of the autonomous regions. Additionally, data do not include the activities of municipalities, which are included in the OECD data. It is intended that this information will be included in Eurostat data in future.

United Kingdom: Data for the UK always cover the financial year, which runs from April-March. Some detailed accounting data were provided for the data collection for reference year 2011 (i.e. April 2011-March 2012) but not in the structure required to fulfil the requirements of the LMP methodology. Eurostat has restructured the data to produce a full dataset for expenditure but the results have not yet been approved by the UK Department for Work and Pensions. As a result the detailed data by intervention cannot be published. Estimated totals by category are, however, included in the EU aggregates. Some data on participants were also provided but these are too incomplete to be published.

Aggregates of expenditure and participants

Aggregates of expenditure data are only provided when values are available (or known to be not significant) for all constituent items.

However, participant data are generally less complete and in order to increase the number of participant aggregates

that can be disseminated, the value of a participant aggregate is shown provided that constituent data are complete for at least 80% of the associated expenditure (completion indicator $\geq 80\%$). All aggregates of participants based on incomplete data are flagged as "u" to alert users that the data are not fully reliable (i.e. may be understated by up to 20%) and this flag always takes precedence over any other flag that might be applicable.

EU totals

EU totals are completed only when data are available for all countries or when Cyprus, Luxembourg and Malta are the only countries with incomplete data. If data for a country is missing for one year then EU totals may be completed using data from the previous year for that country.

Exceptionally, in this year's publication the EU-27 and EU-15 totals for expenditure include estimated expenditure for the UK even though detailed data is not published and are completed despite data for Greece being missing. EU totals for participants cannot be completed because data for both Greece and the United Kingdom are missing and no estimates are available.

The following aggregations should not be made for methodological reasons:

- Participants in category 8 should never be added to those in categories 2-7.
- Participants in category 1 should never be added with any other category.

Double counting may occur legitimately when a person participates in more than one intervention at the same time or is counted in two components of a mixed intervention – for example when training allowances are paid independently from the provision of training services. All known cases of double counting are taken into account by appropriate adjustments, which are shown in the detailed tables of participant data (section 3.4).

Flags

LMP data are flagged at the intervention level. The following flags may be applied:

- b Break in series
- e Estimated data
- n Not significant
- p Provisional data

When data are aggregated (e.g. to category totals or to EU aggregates), the various constituents of the aggregate may have different flags but only one can be applied to the final value. The following rules are applied to determine the flag (if any) to be applied to aggregates. Firstly, the flag most applicable to an aggregate is considered to be the one that applies (at detailed level) to the highest share of the aggregate value. Secondly, a flag is only applied to an aggregate if it affects more than 10% of the total value.

Intervention names

The names of all LMP interventions are shown here in English only. However, for research purposes it may also be helpful to know the name of the intervention in the national language. An inventory of intervention names in both English and national language is included in the LMP Qualitative Reports which are published separately for each country.

LMP expenditure at constant price levels - deflator

The price index for household and NPISH (non-profit institutions serving households) final consumption (2000=100) was used as deflator (see table 4.1.2, source: National Accounts).

Persons wanting to work – definition

Persons wanting to work are defined as the unemployed plus the labour reserve. The unemployed according to the ILO definition are persons without work, currently available for work and actively seeking work. The labour reserve covers inactive persons who want to work but are either not actively seeking work or are not immediately available for work, i.e. it is a subset of all inactive persons (persons neither employed nor unemployed). Data are taken from the EU Labour Force Survey (EU LFS)⁷.

Notes:

- 1 Expenditure of BE-78 is included in BE-1.
- 2 The data for Forem (Wallonia) is not available; it is included under BE-101 and BE-30.
- 3 Data refer to 2010.
- 4 Includes ESF contribution.
- 5 Beneficiaries of this regional training programme continue to receive unemployment benefits which are reported under BE-43 (category 2).
- 6 Data refer to 2009.
- 7 Expenditure of BE-129 and BE-130 are included under BE-42.
- 8 These are unemployment benefits paid to beneficiaries of regional training programmes (BE-40, 41, 42 and 44).
- 9 Some participants may continue to receive unemployment benefits which are reported under category 8.
- 10 Intervention not applied in 2011.
- 11 Scheme abolished since July 2004, but unemployment benefits (recorded in 15.3.1) continue to be paid to disabled people who started to work before that date (and until the end of their employment contract).
- 12 This intervention is being replaced by the Service vouchers (BE-126).
- 13 Participants may continue to receive a monthly integration allowance which is not included here but in category 8.
- 14 Data refer to 2008.

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; p Provisional data; b Break in series

Notes:

- Includes expenditure of CZ-23 (IAP).
- Expenditure covers only the costs of subcontracted services. Related staff costs are covered in CZ-1.
- Participants receive increased unemployment benefits which are recorded in category 8 (CZ-3). Expenditure includes costs of training some persons not registered unemployed and not counted amongst participants (amounts are considered to be negligible).
- Includes ESF contribution.
- Expenditure of CZ-7 includes ESF from CZ-13.
- Intervention not applied in 2011.
- Includes benefits paid to persons in retraining (CZ-2).

Notes:

- Excludes the budget of the actual PES centres which are under the control of the Danish local authorities.
- The financing is (partly) covered by the State/Central government accounts.
- The breakdown of expenditure by type of benefit (full-time, part-time or partial) is not known so all expenditure is shown as full-time benefits, which are the most important.
- Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value;
p Provisional data; b Break in series

Notes:

- 1 Includes ESF contribution.
- 2 For a number of non-LMP programmes, the responsibility was transferred from FÁS to the Department of Social Protection, which explains the reduction in the expenditure.
- 3 Some participants may continue to receive unemployment benefits: these are not reported here but under category 8.
- 4 Participants continue to receive their social welfare benefits (including unemployment benefits - which are reported under category 8).
- 5 Total expenditure on Back to Work Allowances (Employees and Enterprise) is shown under IE-4.
- 6 Expenditure for IE-64 (Systematic short-time) is included under IE-1 (Unemployment benefit).

Notes:

- 1 Includes ESF contribution.
- 2 This intervention is gradually being replaced by the structures implementing the new CSP contracts (FR-117).
- 3 Expenditure is already included under FR-102 (Pôle emploi).
- 4 Intervention coming to an end.
- 5 It is replaced by the new intervention FR-117 (CSP).
- 6 New intervention; replaces FR-84 (CRP) and FR-99 (CTP).
- 7 Training allowances paid to participants in other training programmes (FR-10, FR-11, FR-70, FR-71 and FR-85).
- 8 This intervention regroups training courses organised by the Regions. Some trainees receive the AREF (FR-63).
- 9 Some participants may continue to receive unemployment benefits which are reported under category 8.
- 10 Data cover only apprenticeship contracts concluded with low-qualified youth (66.8% of all contracts) in respect of whom employers receive recruitment incentives.
- 11 It is replaced by FR-112 (CUI-CIE).
- 12 One component of the expenditure (the back-to-work grant) is coming to an end, which explains the decrease of expenditure.
- 13 Replaces FR-80 and FR-81 since January 2010 in mainland France (and January 2011 in overseas areas).
- 14 It is replaced by FR-113 (CUI-CAE).
- 15 Replaces FR-82 and FR-83 since January 2010 in mainland France (and January 2011 in overseas areas).
- 16 A small share (1.97%) of expenditure reported in FR-3 is in fact paid to unemployed people creating their own business (FR-38).
- 17 Moreover, some participants may continue to receive unemployment benefits (FR-1) which are also reported under category 8.

Notes:

- Covers a budget for mixed activities for which the breakdown is not exactly known. Starting 2007 the breakdown is estimated according to the participant stock of the two components.
- From 2009 expenditure also includes the 'Actionplan Youth-unemployment' budget.
- Breakdown by type of expenditure is based on a survey covering about 40% of all municipalities in the Netherlands, representing 70% of the total expenditure.
- From 2006 expenditure on the administration of the TW for WW-recipients is counted under expenditure for the administration of WW.
- Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual Abw/WWB-benefit per person.
- Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual WW-benefit per person.
- Breakdown of expenditure by type is estimated according to a 50-50 split.
- Breakdown is unavailable so all expenditure is allocated to transfer to service providers.
- Expenditure restricted to unemployed people already receiving unemployment benefits (NL-31 WW).

Flags: : Not available; : n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; p Provisional data; b Break in series

Notes:

- Includes ESF contribution.
- The expenditure data can not be compared with the stock data as the latter only provides partial coverage of participants.
- Data is not comparable with data from previous years because it does not include data on young people (which is now in PT-149).
- Data is not comparable with data from previous years because previous data only provided partial coverage of expenditure.
- Previously data for this intervention were included in PT-115.
- Components of theoretical-practical training (cat. 2.3) and socio-professional integration (cat. 4.1.1) not applied. Expenditure includes some data from 2010.
- Intervention not applied in 2011.
- Expenditure is incomplete - amounts concerning unemployment benefits are still recorded in PT-75 in category 8. Amounts reported here refer only to additional financial support.
- Mixed intervention (categories 4 and 7). A breakdown of expenditure by component is not possible so all are allocated to category 4, which is the most important.
- Data includes expenditure concerning 6637 beneficiaries not included in breakdown of participants data (14.449.485 €) Includes ESF contribution.
- Participants continue to receive unemployment benefits that are still recorded in PT-75 in category 8.
- Expenditure is not directly related to participation in 2011.

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value;
p Provisional data; b Break in series

Notes:

- 1 Expenditure includes reimbursement of travel and moving costs incurred by participants plus a share of the PES operational costs based on monitoring of staff time-use.
- 2 Share of operational costs of the PES based on monitoring of staff time-use.
- 3 Expenditure includes the costs paid to service providers for different rehabilitation activities plus a share of the PES operational costs based on monitoring of staff time-use.
- 4 The expenditure is significantly reduced compared to 2010 because registration is not an individual action anymore but is part of the other category 1 services.
- 5 Expenditure includes a share of the PES operational costs based on monitoring of staff time-use plus real transfers to service providers.
- 6 Includes ESF contribution.
- 7 The significant change in both expenditure and participants is still the result of the extension of the eligibility criteria which occurred in 2010.
- 8 Expenditure includes only subsidies paid by the Ministry of Employment and the Economy to facilitate the recruitment of unemployed persons as apprentices.
- 9 Expenditure refers to persons on leave and includes both income support (80/70% of unemployment benefit entitlement) and training supplements where appropriate.
- 10 Data represent an estimate of public funding for sheltered workshops. Income from business activity, which accounts for more than half of revenue, is excluded.
- 11 Expenditure includes rehabilitation allowances and the costs of different rehabilitation activities.
- 12 Passive (income support) payments only. Labour market support payments made to persons in active measures are shown under the appropriate measure. However, LMS paid to persons participating in cat.1 services are included here and not in cat.1.
- 13 Net public expenditure (disbursements minus repayments to the state).
- 14 Significant change both in expenditure and participants as the target group is shrinking because of the eligibility criteria based on the year of birth.

Notes:

- 1 Data refer to 2010.
- 2 All participants are double-counted with measures BE-40 to BE-42 and BE-44 (see BE-83).
- 3 Intervention not applied in 2011.
- 4 Stock: end-year figure.
- 5 Scheme abolished since July 2004, but unemployment benefits (recorded in 15.3.1) continue to be paid to disabled people who started to work before that date (and until the end of their employment contract).
- 6 This intervention is being replaced by the Service vouchers (BE-126).
- 7 Data refer to 2008.

Notes:

- 1 The breakdown of recipients by type of benefit (full-time, part-time or partial) is not known so all are allocated to full-time benefits, which are the most important.
- 2 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

Notes:

- 1 This intervention is gradually being replaced by the structures implementing the new CSP contracts (FR-117).
- 2 Intervention coming to an end.
- 3 It is replaced by the new intervention FR-117 (CSP).
- 4 According to Eurostat recommendations, participant data of FR-94, FR-95 and FR-96 are reported under FR-116 (R.2).
- 5 New intervention; replaces FR-84 (CRP) and FR-99 (CTP).
- 6 Beneficiaries of training allowances are already counted in interventions FR-85 and FR-118.
- 7 Beneficiaries of training allowances are already counted in other training interventions (FR-11, FR-70, FR-71 and FR-85).
- 8 Stock: average of two year-end figures.
- 9 All beneficiaries are already counted in other training measures (FR-70 and FR-71).
- 10 Participants are double counted with FR-63.
- 11 Participants are double counted with FR-70, 71, 104 and 105.
- 12 Participants of FR-11, FR-104 and FR-108 are included in the new intervention FR-118.
- 13 Stock: end-year figure.
- 14 Data cover only apprenticeship contracts concluded with low-qualified youth (66.8% of all contracts) in respect of whom employers receive recruitment incentives.
- 15 Participants in FR-11, 18, 63, 104, 105, 106, 107 and 108 are already included in other training interventions.
- 16 It is replaced by FR-112 (CUI-CIE).
- 17 Most participants are already included under other interventions in categories 4, 6, 7 or 8.
- 18 Replaces FR-80 and FR-81 since January 2010 in mainland France (and January 2011 in overseas areas).
- 19 It is replaced by FR-113 (CUI-CAE).
- 20 Replaces FR-82 and FR-83 since January 2010 in mainland France (and January 2011 in overseas areas). Total entrants includes renewals (these are recorded with previous status employed).

Notes:

- Participants of NL-52 correspond to participants of NL-31 who are either in individual case-management or training.
- Stock: end-year figure.
- 90% of the stock of participants in NL-64 are also reported under NL-33.
- Participants of NL-32 are reported under NL-31.
- Intake for the VLW ended in 2003 so that the 4-year subsidy for entrants up to that time ended in 2006 and there are no longer any participants for this component.
- Participants receiving unemployment insurance/assistance in NL-31 and 33 that are already counted in NL-52 and 64.
- Since 2001, new unemployed civil servants receive the standard WW-scheme (NL-31) instead of the WRO-benefit.

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; u Unreliable or uncertain data: participant data complete for interventions covering >=80% but <100% of expenditure; p Provisional data; b Break in series

Notes:

- 1 Data includes distinct activities: placement and technical supports. In placement, the unemployed become employed, In technical supports the status does not change.
- 2 Stock data is only from the IEFP. However, data from IEFP account for less than 50% of entrants and exits. Data by unemployment by duration is not complete (only IEFP data).
- 3 Data is not comparable with data from previous years because it does not include data on young people (which is now PT-149). Stock data and data by unemployment by duration is incomplete (includes only data from IEFP).
- 4 Data not available. Component 2.1 was not applied.
- 5 Entrants: total beneficiaries (new starts plus end-year stock).
- 6 Data not available
- 7 Previously data for this intervention were included in PT-115. Stock data and data by unemployment duration is not complete (only data from IEFP).
- 8 Intervention not applied in 2011.
- 9 Mixed intervention (categories 4 and 7). A breakdown of participants by component is not possible. All participants are recorded in category 4, which is the most important.
- 10 A small number of participants cannot be accurately allocated between interventions PT-29, 31 and 37. Participants by intervention may therefore be slightly under or over-stated but the total for the three is correct.
- 11 Data by duration of unemployment is for reference year 2010.
- 12 Data do not include 6637 beneficiaries because a breakdown is not available. These figures (6637) are new starts plus end-year stock.
- 13 Data on exits are provisional for 3 years because participation can be suspended for 3 years.
- 14 Stock = total beneficiaries in the year

Notes:

- Entrants: total beneficiaries (new starts plus end-year stock).
- Entrants: total number of activities financed by the Employment and Economy Administration. A person in rehabilitation usually benefits from various activities during rehabilitation (examinations, ability testing, job trials, etc).
- Data on participants are reported separately in FI-57 (R.2).
- Data on participants are reported separately in FI-58 (R.2).
- The significant change in both expenditure and participants is still the result of the extension of the eligibility criteria which occurred in 2010.
- Stock: end-year figure.
- Significant change both in expenditure and participants as the target group is shrinking because of the eligibility criteria based on the year of birth.

8.4	Redundancy compensation
8.5	Bankruptcy compensation
8.A	Adjustment for double counting, category 8
9	Early retirement
9.1	Conditional
9.1.1	Full
9.1.2	Partial
9.2	Unconditional
9.2.1	Full
9.2.2	Partial
9.A	Adjustment for double counting, category 9
X	Not classified

5.3 Breakdown by type of expenditure

Category	Name
1	Total
2	Transfers to individuals
2.1	Periodic cash payments
2.2	Lump-sum payments
2.3	Reimbursements
2.4	Reduced social contributions
2.5	Reduced taxes
3	Transfers to employers
3.1	Periodic cash payments
3.2	Lump-sum payments
3.3	Reimbursements
3.4	Reduced social contributions
3.5	Reduced taxes
4	Transfers to service providers

5.4 Abbreviations by country

This table expands on abbreviations used in the intervention names and explanatory notes to the quantitative data on expenditure and participants reported by each country. A more complete list of LMP-related abbreviations for each country may be found in the LMP qualitative reports that are available on the Eurostat website.

Country/Abbreviation	Meaning
Belgium	
ALE	Agence locale pour l'emploi
APE	Aides à la promotion de l'emploi
BCR	Brussels-capital region
CAO 26	Collectieve arbeidsovereenkomst 26
CBO	Centrum voor Begeleiding en Opleiding
CPAS	Centre public d'aide sociale
FBI	Fonds budgétaire interdépartemental
Fed	Federal government
FOREM	Office communautaire et régional de la formation professionnelle et de l'emploi pour la Région wallonne
FR	Flemish region
GC	German-speaking community
ONEM	Office national de l'emploi
PWA	Plaatselijk Werkgelegenheidsagentschap
RVA	Rijksdienst voor Arbeidsvoorziening
VDAB	Vlaamse Dienst voor Arbeid en Beroepsopleiding
WR	Walloon region
Bulgaria	
EA	Employment Agency
Czech Republic	
SÚMP	Společensky účelná pracovní místa
SVC-SÚMP	Samostatná výdělečná činnost - společensky účelné pracovní místo
VPP	Verejné prospešné práce
Germany	
ABM	Arbeitsbeschaffungsmaßnahmen
AfL	Arbeit für Langzeitarbeitslose
ALG II	Arbeitslosengeld II
Ireland	
BTEA	Back to education allowance
BWEA	Back to work enterprise allowance
FAS	An Foras Aiseanna Saothair (The training and employment authority)
PRSI	Pay related social insurance
VTOS	Vocational training opportunities scheme
Greece	
ESPA	System of protection against unemployment
KEK	Accredited vocational training centres
LAEK	Employment and Vocational Training Fund
OAED	Greek Manpower Employment Organisation
ORP	Operational Regional Programmes
Spain	
C.O	Casas de oficio
E.T	Programa de escuelas-taller
FIP	Formación e inserción profesional
SPEE	Servicio Público de Empleo Estatal (previously INEM)
T.E	Talleres de Empleo

Country/Abbreviation	Meaning
France	
AFPA	Association pour la formation professionnelle des adultes
AFPE/PARE	Actions de formation préalable à l'embauche (Plan d'aide au retour à l'emploi)
AGEFIPH	Association pour la gestion de l'emploi, la formation et l'insertion professionnelle des personnes handicapées

European Commission

Luxembourg: Publications Office of the European Union

2014 — 207 pp. — 21 x 29,7 cm

Theme: Population and social conditions

Collection: Statistical books

ISBN 978-92-79-34925-6

ISSN 1725-602X

doi: 10.2785/50210

Cat. KS-DO-13-001-EN-N

HOW TO OBTAIN EU PUBLICATIONS

Free publications:

- one copy:
via EU Bookshop (<http://bookshop.europa.eu>);
- more than one copy or posters/maps:
from the European Union's representations (http://ec.europa.eu/represent_en.htm);
from the delegations in non-EU countries (http://eeas.europa.eu/delegations/index_en.htm);
by contacting the Europe Direct service (http://europa.eu/europedirect/index_en.htm) or
calling 00 800 6 7 8 9 10 11 (freephone number from anywhere in the EU) (*).

(*) The information given is free, as are most calls (though some operators, phone boxes or hotels may charge you).

Priced publications:

- via EU Bookshop (<http://bookshop.europa.eu>).

Priced subscriptions:

- via one of the sales agents of the Publications Office of the European Union (http://publications.europa.eu/others/agents/index_en.htm).

Labour market policy – expenditure and participants

Data 2011

Labour market policy (LMP) statistics provide information on labour market interventions implemented by the EU Member States and Norway. This publication presents data on public expenditure and participants (or beneficiaries) of LMP interventions in 2011. In addition, tables with time series for the years 1998-2011 are included, showing LMP expenditure at constant price levels as well as participant data by age and sex.
