# 1 Introduction

This publication presents statistics on labour market policy (LMP) interventions implemented by EU Member States and Norway in 2016, together with time-series for key variables covering the period 2004-2016.

The paper is divided in four chapters. Chapter 1 is introductory. Chapters 2 and 3 deal respectively with data on expenditure and participants in LMP interventions and include tables of indicators used for monitoring the EU Employment Guidelines. Chapter 4 includes tables of external and reference data that help to put the LMP data into context.

All data and other information in this publication are presented in accordance with the LMP Methodology 2018<sup>1</sup> (see point 1.3 below).

## 1.1 Scope of LMP statistics and key concepts

LMP statistics cover labour market interventions which are public interventions in the labour market aimed at reaching its efficient functioning and correcting disequilibria. LMP interventions are distinguished from other general employment policy interventions in that they act selectively to favour particular groups in the labour market. The primary target groups in most countries are those people who are registered as unemployed by national Public Employment Services (PES) or who are currently employed but at risk of involuntary job loss due to difficult economic circumstances for their employer. However, policy objectives at European and national levels are increasingly focused not only on these groups but on a wider range of people facing disadvantages and barriers that may prevent them from joining or re-joining the labour force – for example, women re-entering work after a family break, young people looking for their first job, older workers and disabled workers. Therefore, people currently considered as inactive but who would like to enter the labour market are also treated as an important LMP target group.

National interventions are classified according to a single scheme in order to ensure that the information on LMP interventions undertaken across Europe is presented in a way that is as consistent and comparable as possible. LMP interventions are classified by type of action, which refers to the way in which an intervention acts to achieve its objectives. The classification identifies three broad types of intervention – services, measures and supports – which are subdivided into 8 categories<sup>2</sup>. LMP services cover all services and activities of the Public Employment Services (PES) together with any other publicly funded

services for jobseekers. Services include the provision of information and guidance about jobs, training and other opportunities that are available and advice on how to get a job (e.g. assistance with preparing CVs, interview techniques, etc.). The classification scheme includes one category of LMP services:

- Labour market services (cat. 1)

LMP measures cover interventions that aim to provide people with new skills or experience of work in order to improve their employability or that encourage employers to create new jobs and take on unemployed people and other target groups. Measures include various forms of intervention that "activate" the unemployed and other groups by obliging them to participate in some form of activity in addition to basic job search, with the aim of improving their chances of finding regular employment afterwards. They are mostly short-term and temporary actions but on-going support for jobs that would otherwise not be sustained in the regular labour market is also covered. The classification scheme identifies five categories of LMP measures<sup>2</sup>:

- Training (cat. 2)
- Employment incentives (cat. 4)
- Supported employment and rehabilitation (cat. 5)
- Direct job creation (cat. 6)
- Start-up incentives (cat. 7)

LMP supports cover financial assistance that aims to compensate individuals for loss of wage or salary and to support them during job-search (i.e. mostly unemployment benefits) or which facilitates early retirement for labour market reasons. The classification scheme includes two categories of LMP supports:

- Out-of-work income maintenance and support (cat. 8)
- Early retirement (cat. 9)

For each intervention, data on expenditure and participants are collected. Expenditure is broken down according to a two tier scheme, which distinguishes firstly the direct recipient of the transfers and then the type of expenditure involved. The numbers of participants in LMP interventions are recorded using three observations: stock, entrants and exits. Stock data (annual average) refer to the average number of persons participating in an intervention at a given moment during the year and are usually calculated from the administrative data as an average of the stock at the end of each month. The annual average stock can also be interpreted as the number of person-years of participation in an intervention. Flow data describe the number of people joining (entrants) or leaving an intervention (exits) during

the year. Each participation is counted so that a given individual may be counted more than once in both entrants and exits data.

## 1.2 EU employment policy and LMP indicators

LMP statistics are one of the key data sources used for monitoring the EU Employment Guidelines through the Europe 2020 Joint Assessment Framework (JAF)<sup>3</sup>. The JAF is an indicator-based assessment system developed and used by the European Commission (Directorate General for Employment, Social Affairs and Inclusion) and the Employment Committee (EMCO). Organised in 12 Policy areas (PA), the JAF includes a series of indicators used to monitor progress towards EU headline targets and related national targets in relation to the implementation of the Employment Guidelines. In each policy area, indicators are categorised as overall indicators, sub-indicators, and context indicators. The logic of the JAF is that, in principle, under each policy area the sub- and context indicators should reflect factors that explain and drive the outcome of the overall indicator.

Six indicators related to LMP fall within policy area 3 - Active labour market policies (PA3):

- PA3.S1 (sub-indicator) Expenditure on ALMP per person wanting to work (see Table 2.1.4): Expenditure on LMP category 1.1.2 (Individual case management)<sup>4</sup> and LMP categories 2-7 divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA3.S2 (sub-indicator) Expenditure on ALMP as a % GDP (see Table 2.1.3): Expenditure on LMP category 1.1.2 (Individual case management)<sup>4</sup> and LMP categories 2-7 as a percentage of GDP.

- PA3.S3 (sub-indicator) Activation (see Tables 3.3.1 - 3.3.3): Stock of participants in regular activation measures (LMP categories 2-7) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA3.C1 (context indicator) Activation of registered unemployed (see Tables 3.3.4 - 3.3.6): Stock of participants in regular activation measures (LMP categories 2-7) that were previously registered unemployed divided by the stock of registered unemployed plus the stock of participants in regular activation measures that were previously registered unemployed and whose unemployment spell is broken by participation in a regular activation measure.

- PA3.C4 (context indicator) Activation of long-term (registered) unemployed (see Tables 3.3.7 - 3.3.9): Stock of participants in regular activation measures (LMP categories 2-7) that were previously long-term registered unemployed divided by the stock of long-term registered unemployed plus the stock of participants in regular activation measures that were previously long-term registered unemployed and whose unemployment spell is broken by participation in a regular activation measure (long-term unemployed = 12+ months).

- PA3.C6 (context indicator) Timely activation (see Tables 3.3.10 - 3.3.12): The proportion of entrants in regular activation measures (LMP categories 2-7) or assisted activation programmes (LMP sub-category 1.1.2) taken up by persons not yet long-term unemployed (Target value 100% = full compliance):  $(A-B)/A$  % where A = Total entrants, B = Long-term unemployed entrants (12+ months).

Two further indicators related to LMP fall within policy area 4 - Adequate and employment oriented social security systems (PA4):

- PA4.1.S1 (sub-indicator) Expenditure on LMP supports per person wanting to work (see Table 2.1.4): Expenditure on LMP category 8 (Out of work income maintenance and support) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA4.1.S2 (sub-indicator) Expenditure on LMP supports as % of GDP (see Table 2.1.3): Expenditure on LMP category 8 (Out of work income maintenance and support) as a percentage of GDP.

## 1.3 Guiding remarks on data

### Source of data and timeliness

Unless otherwise specified, all data presented in this publication were extracted from the LMP database<sup>5</sup> on 17th August 2018. Data are collected annually from administrative sources in each country. The publication includes tables showing the original source of data on expenditure and participants for each intervention (see Tables 5.5 and 5.6).

Source codes in the form of internet hyperlinks are included after each table and figure in this publication to help readers access easily the most recent data available from the Eurostat website.

## LMP Methodology

The LMP data collection is underpinned by a comprehensive methodology. It defines the scope of the data collection, the statistical unit and coverage, describes the classification system, and gives precise guidelines on the data to be provided. Users of LMP data are recommended to refer to this methodology in order to facilitate interpretation of the data provided in this publication. The methodology is available from the Eurostat website<sup>6</sup>. This publication includes the questionnaire used in the LMP data collections (see Table 5.1), the classification scheme by type of action (see Table 5.2) and breakdown by type of expenditure (see Table 5.3).

The LMP methodology is also used by the OECD. Data on LMP expenditure and participants published by the OECD in "Employment Outlook" for the EU countries and Norway are collected and carefully validated annually by the European Commission's Directorate-General for Employment, Social affairs and Inclusion before being sent, together with all related metadata, to the OECD. The only divergence between the two databases is in category 1 (Labour market services), where OECD prefers to maintain a different coverage and has, for some countries, either supplemented or excluded parts of the data.

## Qualitative data

In addition to the quantitative data on expenditure and participants presented here, the LMP database includes valuable qualitative information describing each intervention, how it works, the main target groups, etc. These descriptions help to put the quantitative data into context and can be extremely useful for researchers. These qualitative data are made available in an online database on the DG EMPL website<sup>6</sup> and are also compiled into a series of "Labour market policy statistics: Qualitative Reports" produced as separate volumes for each country/year<sup>7</sup>. This publication includes a table expanding on any abbreviations used in intervention names and explanatory notes to the quantitative data reported by each country (see Table 5.4).

## Coverage

In accordance with the LMP methodology, the data presented in this publication should cover all LMP interventions in each country including those of autonomous regions, which may be significant. There are, however, some known exceptions:

Germany: The Länder (regional authorities) carry out some important LMP activities independently of the

federal actions but insufficient data are available to report on these in any detail. However, many of the activities of the Länder are supported by the ESF (European Social Fund) and the LMP data for 2000-2006 include a single entry (DE-84) covering this expenditure and the related participants. Unfortunately changes to reporting procedures for the 2007-2013 ESF funding period mean that the data on ESF expenditure relevant to LMP in Germany are no longer available. The data for Germany for 2007-2016 are therefore missing the expenditure and participants related to LMP activities of the Länder. In 2006 the ESF support for these actions accounted for 7.4% of the expenditure on LMP measures (categories 2-7) in Germany and 29.6% of the participants.

Spain: Data for reference years prior to 2013 do not provide complete coverage of the activities of municipalities and do not cover all of the autonomous regions.

Italy: Data for reference year 2016 are incomplete because data for a number of ESF funded interventions were not available at the time of the data collection.

United Kingdom: Data for reference years 2011 - 2016 were not provided.

## Aggregates of expenditure and participants

Aggregates of expenditure data are only provided when values are available (or known to be not significant) for all constituent items.

However, participant data are generally less complete and in order to increase the number of participant aggregates that can be disseminated, the value of a participant aggregate is shown provided that constituent data are complete for at least 80% of the associated expenditure (completion indicator  $\geq 80\%$ ). All aggregates of participants based on incomplete data are flagged as "u" to alert users that the data are not fully reliable (i.e. may be understated by up to 20%) and this flag always takes precedence over any other flag that might be applicable.

## EU totals

EU totals are completed only when data are available for all countries or when Cyprus, Luxembourg and Malta are the only countries with incomplete data. If data for a country is missing for one year then EU totals may be completed using data from the previous year for that country.

The following aggregations should not be made for methodological reasons:

- Participants in category 8 should never be added to those in categories 2-7.
- Participants in category 1 should never be added with any other category.

Double counting may occur legitimately when a person participates in more than one intervention at the same time or is counted in two components of a mixed intervention – for example when training allowances are paid independently from the provision of training services. All known cases of double counting are taken into account by appropriate adjustments, which are shown in the detailed tables of participant data (section 3.4).

## Flags

LMP data are flagged at the intervention level. The following flags may be applied:

- b Break in series
- e Estimated data
- n Not significant
- p Provisional data
- u Unreliable data (see section on aggregates of participants above)
- z Not applicable

When data are aggregated (e.g. to category totals or to EU aggregates), the various constituents of the aggregate may have different flags but only one can be applied to the final value. The following rules are applied to determine the flag (if any) to be applied to aggregates. Firstly, the flag most applicable to an aggregate is considered to be the one that applies (at detailed level) to the highest share of the aggregate value.

Footnotes:

1. <http://ec.europa.eu/social/main.jsp?catId=738&langId=en&pubId=8126&furtherPubs=yes>
2. Note that since the 2013 LMP methodology was introduced category 3 has been merged into category 4 (as sub-category 4.3) and is no longer used as a top-level category
3. <http://ec.europa.eu/social/BlobServlet?docId=6440&langId=en>
4. At the present time data for LMP category 1 are not fully broken down by sub-category for all countries. Therefore the indicator can only be calculated for categories 2-7.
5. <http://ec.europa.eu/eurostat/web/labour-market/labour-market-policy/database>
6. <http://ec.europa.eu/social/main.jsp?catId=1143&intPageId=3227&langId=en>
7. <http://ec.europa.eu/eurostat/web/labour-market/labour-market-policy>
8. <http://ec.europa.eu/eurostat/web/lfs/overview>

Secondly, a flag is only applied to an aggregate if it affects more than 10% of the total value.

## Intervention names

The names of all LMP interventions are shown here in English only. However, for research purposes it may also be helpful to know the name of the intervention in the national language. An inventory of intervention names in both English and national language is included in the LMP Qualitative Reports which are published separately for each country.

## LMP expenditure at constant price levels - deflator

The price index for household and NPISH (non-profit institutions serving households) final consumption (2010=100) was used as deflator (see table 4.1.2, source: National Accounts).

## Persons wanting to work – definition

Persons wanting to work are defined as the unemployed plus the labour reserve. The unemployed according to the ILO definition are persons without work, currently available for work and actively seeking work. The labour reserve covers inactive persons who want to work but are either not actively seeking work or are not immediately available for work, i.e. it is a subset of all inactive persons (persons neither employed nor unemployed). Data are taken from the EU Labour Force Survey (EU LFS)<sup>8</sup>.

## 1.4 Key to symbols and abbreviations

:	Not available
:n	Not significant
-	Not applicable or real zero or zero by default
0 or 0.00	Less than half of the unit used

## Notes

- 1 BE-1 includes expenditure of BE-78.
- 2 The data for Forem (Wallonia) is not available; it is included under BE-101 and BE-30.
- 3 Includes ESF contribution.
- 4 BE-54 includes expenditure of BE-65.
- 5 The majority of participants receive unemployment benefits which are reported under category 8.
- 6 BE-77 includes expenditure of BE-159.
- 7 Beneficiaries of this regional training programme continue to receive unemployment benefits which are reported under BE-43 (category 2).
- 8 Beneficiaries continue to receive unemployment benefits which are reported under BE-43 (category 2).
- 9 These are unemployment benefits paid to beneficiaries of regional training programmes (BE-40, 41, 42 and 44).
- 10 Some participants may continue to receive unemployment benefits which are reported under category 8.
- 11 Participants may continue to receive a monthly integration allowance which is not included here but in BE-89.
- 12 Data refer to 2014: in the context of the 6th State Reform, the competence related to the allocation of new credits belongs to the regions since July 2014. Following this re-organisation, data related to this intervention is not available anymore.

## Notes

- The figures on expenditures includes the budget of the actual PES centres which are under the control of the Danish local authorities
- The financing is (partly) covered by the State/Central government accounts
- Includes training fees and the wages of both workers involved in the job rotation.
- The breakdown of expenditure by type of benefit (full-time, part-time or partial) is not known so all expenditure is shown as full-time benefits, which are the most important.
- Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 21% of all recipients.

## Notes

- 1 Some beneficiaries continue to receive unemployment benefits: the corresponding amount is reported in ES-5 (cat 8).
- 2 Includes ESF contribution.
- 3 Total expenditure covers both transfers to individuals and transfers to service providers - the breakdown is not available.
- 4 ES-18 includes expenditure of ES-19.
- 5 ES-21 includes expenditure of ES-24 and ES-45.
- 6 Includes unemployment benefits received by participants in training interventions in category 2.
- 7 Data on the Autonomous Communities are not available but they are estimated to represent a small share of the total.

Flags: : not available; - real zero or zero by default; b break in time series; e estimated; n not significant; p provisional; z not applicable

Notes

- 1 Includes ESF contribution.
- 2 The intervention is coming to an end.
- 3 Expenditure is already included under FR-102 (Pôle emploi).
- 4 The remuneration of traineeships organised by the regions (FR-85) is included under FR-18.
- 5 The decrease in expenditure is due to the fact that the management of this measure has been transferred to the regions (but regional data are not available).
- 6 Some participants may continue to receive unemployment benefits (reported under category 8).
- 7 A small share (1.7%) of expenditure reported in FR-3 is in fact paid to unemployed people creating their own business (FR-38).

Notes

- 1 Expenditure is estimated on the basis of the CES management's assessment of the person-hours needed to perform the service relative to the total person-hours of CES staff
- 2 The expenditure is reported on a cash basis.
- 3 Measure implemented but there was no expenditure.
- 4 The expenditure for the measure is estimated using the total expenditure for the group of measures and the stock of participants by individual measures.
- 5 Expenditure estimated using 2015 data.
- 6 Includes ESF contribution.
- 7 As only total expenditure on relocation and travel expenses is available in accounting reports, an estimate is provided.

Flags: : not available; - real zero or zero by default; b break in time series; e estimated; n not significant; p provisional; z not applicable

Notes

- 1 Expenditure for MT-24, covers the costs of the national PES.
- 2 Includes ESF contribution.
- 3 There are instances where participants continue to receive Unemployment Benefits (reported under intervention 28)
- 4 In cases where participants opt to continue receiving Unemployment Benefits or Unemployment Assistance instead of the cash benefit offered by ETC, such expenditure is reported under interventions 28 or 29 respectively.
- 5 In cases where the subsistence is less than the Unemployment Benefit and the Social Security Department issues a separate payment to cover the short-fall, such expenditure is reported under intervention 28
- 6 Actual data is unavailable. Data estimated on the basis of expenditure for 2014 and participant data.
- 7 Expenditure estimated as the national minimum weekly wage multiplied by the number of weeks each participant spent in the scheme during the year.

## 2.3.19 LMP expenditure by intervention and by type of action, 2016: Netherlands

(Million Euro)

Category, intervention number and name		15.1 Total	15.2 Transfers to individuals	15.3 Transfers to employers	15.4 Transfers to service providers	15.5 Not specified	Notes
1-9	Total LMP (categories 1-9)	16 726.8 e	11 863.9 e	476.5	4 386.5 e	-	
2-7	Total LMP measures (categories 2-7)	3 397.0 e	159.0 e	476.5	2 761.6 e	-	
8-9	Total LMP supports (categories 8-9)	11 704.9 e	11 704.9 e	-	-	-	

Flags: : not available; - real zero or zero by default; b break in time series; e estimated; n not significant; p provisional; z not applicable

## Notes

- 1 Breakdown by type of expenditure is based on a survey covering about 40% of all municipalities in the Netherlands, representing 70% of the total expenditure.
- 2 From 2006 expenditure on the administration of the TW for WW-recipients is counted under expenditure for the administration of WW.
- 3 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual Abw/WWB-benefit per person.
- 4 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual WW-benefit per person.
- 5 Breakdown is unavailable so all expenditure is allocated to transfer to service providers.
- 6 Expenditure restricted to unemployed people already receiving unemployment benefits (NL-31 WW).

## 2.3.26 LMP expenditure by intervention and by type of action, 2016: Finland

(Million Euro)

Category, intervention number and name		15.1 Total	15.2 Transfers to individuals	15.3 Transfers to employers	15.4 Transfers to service providers	15.5 Not specified	Notes
1-9	Total LMP (categories 1-9)	5 998.0	5 270.1	214.9 e	512.9	-	
2-7	Total LMP measures (categories 2-7)	1 808.9	1 296.3 e	214.9 e	297.7	-	
8-9	Total LMP supports (categories 8-9)	3 957.1	3 957.1	-	-	-	

Flags: : not available; - real zero or zero by default; b break in time series; e estimated; n not significant; p provisional; z not applicable

Notes

- 1 Share of operational costs of the PES based on monitoring of staff time-use.
- 2 Expenditure of FI-56 (sub-category 1.1.1) includes expenditure which used to be reported under FI-51 (sub-category 1.2.2).
- 3 Includes ESF contribution.
- 4 Expenditure includes only subsidies paid by the Ministry of Economic Affairs and Employment to facilitate the recruitment of unemployed persons as apprentices.
- 5 Expenditure refers to persons on leave and includes both income support (70% of unemployment benefit entitlement) and training supplements where appropriate.
- 6 Data represent an estimate of public funding for sheltered workshops. Income from business activity, which accounts for more than half of revenue, is excluded.
- 7 Expenditure includes rehabilitation allowances and the costs of different rehabilitation activities.
- 8 Unemployment benefits paid to recipients participating in measures are not included here, they are reported under the appropriate measures (under categories 2-7).

## Notes

- 1 The allocation of expenditure to components is partly based on estimates. Periodic cash payments for 1.1.2 (activity support) included in SE - 81. Cost of individual service for 1.1.2 included in expenditure of SE-20.
- 2 Transfers to individuals (activity support) included in SE-81.
- 3 Cost of individual services included in SE-20. The residual amount reported as transfers to service providers refer to payment to external service providers e.g. Training.
- 4 Cost of individual service included in expenditure of SE-20.
- 5 The activity support for SE-43 and SE-67 are included in SE-92.
- 6 Periodic cash payments included in SE-80 and hence accounted for in SE-81.
- 7 Expenditure includes some payments for travelling to interviews, which are normally considered under category 1.
- 8 Intervention coming to an end.
- 9 End of intervention during 2015.
- 10 Includes credited social contributions.

## Notes

- 1 Stock: end-year figure.
- 2 All participants reported in BE-43 are double-counted with BE-40, BE-41, BE-42 and BE-44.
- 3 BE-115 includes stocks of BE-105 and BE-113.
- 4 Data refer to 2014: in the context of the 6th State Reform, the competence related to the allocation of new credits belongs to the regions since July 2014. Following this re-organisation, data related to this intervention is not available anymore.

Notes

- 1 The breakdown of recipients by type of benefit (full-time, part-time or partial) is not known so all are allocated to full-time benefits, which are the most important.
- 2 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

- Notes
- 1 Destination upon exit refers to the situation of participants 6 months after the programme was completed.
  - 2 Stock: end-year figure.
  - 3 Destination upon exit refers to the situation of participants 12 months after the programme was completed.
  - 4 Stock: start-year figure.
  - 5 Stock figures are estimated based on entrants in previous years and planned duration.
  - 6 Breakdowns of entrants by age are estimated based on figures from previous years.
  - 7 Exits are estimated based on entrants in previous years and planned duration.
  - 8 Breakdowns by sex, age and duration of unemployment are estimated based on entrants.
  - 9 Between 2015 and 2016 there were 737 new positions, which were equally divided between the two years. ← Stock figures are estimated based on entrants in previous years and planned duration.
  - 10 Breakdowns by sex are estimated based on entrants figures in previous year.
  - 11 Breakdowns by sex and age are estimated based on entrants.
  - 12 Stock figures are calculated based on total payments.
  - 13 Stock figures are estimated based on entrants in previous years and planned duration (refers to entrants in the previous reference year).
  - 14 Entrants refer to number of beneficiaries paid within the reference year (incl. participants from previous years whose payments were delayed).

Notes

- 1 The intervention is coming to an end.
- 2 Participants in component 8.1.1 are already reported under FR-1.
- 3 Stock: end-year figure.
- 4 Participants of FR-133 are only reported under FR-116 (R.2).
- 5 Participants of FR-95, 134 and 136 are also reported under FR-116 (R.2).
- 6 Participants of FR-136 are also reported under FR-116 (R.2).
- 7 Beneficiaries of training allowances are already counted in interventions FR-85 and FR-118.
- 8 Beneficiaries of training allowances are already counted in other training interventions (FR-70, FR-71 and FR-85).
- 9 Participants of FR-106 are included in FR-63.
- 10 Stock: average of two year-end figures.
- 11 All beneficiaries are already counted in other training measures (FR-70 and FR-71).
- 12 Double counting with FR-70, FR-71 and FR-104.
- 13 Participants of FR-11 are included in FR-118.
- 14 Some participants of FR-104 are double counted with those reported in FR-118.
- 15 Stock: start-year figure.
- 16 Data cover only apprenticeship contracts concluded with low-qualified youth (56.4% of all contracts) for which employers receive recruitment incentives.
- 17 Adjustment for double-counting: FR-63, FR-104, FR-106 and FR-107.
- 18 Most participants are already included under other interventions in categories 4, 6, 7 or 8.
- 19 Participant data only refer to young people who are the main target of this intervention (older people are not included here).
- 20 Double-counting with FR-38.
- 21 All participants in FR-121 and 84% of participants in FR-122 are already reported in FR-38.

Notes

- 1 Participants are reported separately as reference data.
- 2 The number of participants estimated using the 2015 data.
- 3 Data on participants by characteristics are not available.
- 4 Measure implemented but there were no participants.
- 5 The distribution by sex, age and duration of unemployment is estimated using the distribution for the group of measures.
- 6 The estimate of the stock and the distribution by age, sex and duration of unemployment is based on 2015 data and the total of entrants in 2016.
- 7 The distribution by sex, age and duration of unemployment is estimated using the 2015 data with corrections.
- 8 The distribution by sex, age and duration of unemployment is estimated using the 2015 data.
- 9 The number of participants is estimated using the 2015 data.
- 10 The distribution by age is estimated using the distribution for the group of measures.
- 11 The estimate of the stock is based on the overview of the original individual data. The estimate of the distribution by age, sex and duration of unemployment is based on 2015 data.
- 12 The distribution by age and duration of unemployment is estimated using the distribution for the group of measures.
- 13 Stock is not relevant as compensation is a lump-sum payment. Entrants = Exits. The number of entrants/exits by age is estimated using the distribution in 2015.

Notes

- The data refer to 2015.
- Mixed measure (categories 2 and 4) - it is not possible to separate the data so all participants are allocated to training, which is the most important component.
- Stock: start-year figure. Entrants: total beneficiaries (new starts plus end-year stock).

Flags: : not available; - real zero or zero by default; b break in time series; e estimated; n not significant; p provisional; u unreliable or uncertain: participant data complete for interventions covering >=80% but <95% of expenditure; z not applicable

Notes

- 1 Data includes distinct activities: placement and technical supports. In placement, the unemployed become employed, In technical supports the status does not change. ←Data on unemployment by duration not complete (data from Azores not available).
- 2 All participants in components 2 are participants in component 4 too. Participants in component 4.1.1 are not included in total in order to avoid double counting.
- 3 Intervention coming to an end.
- 4 Partial data.
- 5 Detail breakdown not available. ← Entrants: total beneficiaries (new starts plus end-year stock).
- 6 Intervention not applied in 2016.
- 7 Data not available.
- 8 A small number of participants cannot be accurately allocated between interventions PT-29, 31 and 37. Participants by intervention may therefore be slightly under or over-stated but the total for the three is correct.
- 9 Data do not include 9804 beneficiaries because breakdown is not available.
- 10 Data on exits are provisional for 3 years because participation can be suspended during the first 3 years after entrance.
- 11 Stock = total beneficiaries in the year.
- 12 Data on entrants and exits are not available.

9.2	Unconditional
9.2.1	Full
9.2.2	Partial
9.A	Adjustment for double counting, category 9
<b>X</b>	<b>Not classified</b>

### 5.3 Breakdown by type of expenditure

Category	Name
<b>1</b>	<b>Total</b>
<b>2</b>	<b>Transfers to individuals</b>
2.1	Periodic cash payments
2.2	Lump-sum payments
2.3	Reimbursements
2.4	Social contributions
2.5	Taxes
<b>3</b>	<b>Transfers to employers</b>
3.1	Periodic cash payments
3.2	Lump-sum payments
3.3	Reimbursements
3.4	Social contributions
3.5	Taxes
<b>4</b>	<b>Transfers to service providers</b>

## 5.4 Abbreviations

Country/Abbreviation	Meaning
<b>Belgium</b>	
ALE	Agence locale pour l'emploi
APE	Aides à la promotion de l'emploi
BCR	Brussels-capital region
CAO 26	Collectieve arbeidsovereenkomst 26
CBO	Centrum voor Begeleiding en Opleiding
CPAS	Centre public d'aide sociale
FBI	Fonds budgétaire interdépartemental
Fed	Federal government
FOREM	Office communautaire et régional de la formation professionnelle et de l'emploi pour la Région wallonne
FR	Flemish region
GC	German-speaking community
ONEM	Office national de l'emploi
PWA	Plaatselijk Werkgelegenheidsagentschap
RVA	Rijksdienst voor Arbeidsvoorziening
VDAB	Vlaamse Dienst voor Arbeid en Beroepsopleiding
WR	Walloon region
<b>Bulgaria</b>	
EA	Employment Agency
<b>Czech Republic</b>	
SÚMP	Spolecensky účelná pracovní místa
SVC-SÚMP	Samostatná výdělečná činnost - spolecensky účelné pracovní místo
VPP	Verejne prospešné práce
<b>Germany</b>	
ABM	Arbeitsbeschaffungsmaßnahmen
AfL	Arbeit für Langzeitarbeitslose
ALG II	Arbeitslosengeld II
<b>Ireland</b>	
BTEA	Back to education allowance
BWEA	Back to work enterprise allowance
DSP	Department of Social Protection
FAS	An Foras Aiseanna Saothair (The training and employment authority)
PRSI	Pay related social insurance
SOLAS	Further Education and Training Authority
VTOS	Vocational training opportunities scheme
<b>Greece</b>	
ESPA	System of protection against unemployment
EYSEKT	ESF Actions Coordination and Monitoring Authority
GENE	Seafarer's Employment Office
KEK	Accredited vocational training centres
LAEK	Employment and Vocational Training Fund
OAED	Greek Manpower Employment Organisation
OPEKEPE	Payment and Control Agency for Guidance and Guarantee Community Aid
ORP	Operational Regional Programmes

Country/Abbreviation	Meaning
<b>Spain</b>	
C.O	Casas de oficio
E.T	Programa de escuelas-taller
FIP	Formación e inserción profesional
SPEE	Servicio Público de Empleo Estatal (previously INEM)
T.E	Talleres de Empleo
<b>France</b>	
AFPA	Association pour la formation professionnelle des adultes
AFPE/PARE	Actions de formation préalable à l'embauche (Plan d'aide au retour à l'emploi)
AGEFIPH	Association pour la gestion de l'emploi, la formation et l'insertion professionnelle des personnes handicapées
ANPE	Agence nationale pour l'emploi
APEC	Association pour l'emploi de cadres
AREF	Allocation d'aide au retour à l'emploi - formation
CAE	Contrat d'accompagnement dans l'emploi
CAT	Centre d'aide par le travail (pour handicapés)
CATS	Cessation d'activité de certains travailleurs salariés
CAV	Contrat d'avenir
CEC	Contrat emploi consolidé
CES	Contrat emploi solidarité
CIE	Contrat initiative emploi
CIE-PCS	Contrat initiative emploi (Plan de cohésion sociale)
CI-RMA	Contrat d'insertion - Revenu minimum d'activité
CIVIS	Contrat d'insertion dans la vie sociale
CRP	Convention de reclassement personnalisé
CTP	Contrat de transition professionnelle
CUI	Contrat unique d'insertion
